3X Skills & Career Finder GPT vs LinkedIn Premium (Career)

Capability snapshot for senior leaders: skills-first intelligence vs market-visibility tools

3X Skills & Career Finder GPT
Skills-first career clarity + action plan

Primary value
- Skills profile across Digital, Business, Social
- Role pathways + prioritized next steps
- AI impact lens to focus on durable skills

Personalization
- Conversational intake (goals, constraints, experience)
- Outputs: skills map, gap plan, scripts (optional)

Data & signals
- User narrative + skills taxonomy and task mapping
- Portable beyond a single platform or network

Networking & outreach
- Guidance + templates (no native network)
- Best paired with LinkedIn and email for execution

Learning & upskilling
- Sequenced plan; can prioritize free resources
- Coach-style accountability prompts

Best for
- Career clarity, pivots, workforce programs
- Users without strong networks or paid tools

LinkedIn Premium (Career)
Market visibility + recruiter tools

Primary value
- Job-search advantage with premium insights
- Profile viewers + applicant insights
- InMail outreach + LinkedIn Learning access

Personalization
- Advanced filters + job match and applicant insights
- AI-assisted drafting + profile tools

Data & signals
- LinkedIn graph + job posting signals
- Viewer analytics (subject to privacy settings)

Networking & outreach
- 5 InMail credits per month (Premium Career)
- Private browsing + up to 365-day viewer insights

Learning & upskilling
- LinkedIn Learning course library
- Skill-building tied to platform content

Best for
- Active LinkedIn job seekers + network builders
- Recruiter-heavy markets

Executive takeaway
Use 3X for skills clarity + sequencing; use LinkedIn Premium for visibility + recruiter outreach. Together: faster direction-to-action.
